With robust experience in application development and Google Enterprise technologies, I believe that my diverse technical abilities and interpersonal skills will enable me to become a key contributor in the role of Software Developer at your company.

In my current position at Liga Samsung, I'm responsible of the development team, including designers, developers and journalists, leading digital projects development. In the last 6 months helped to implement processes and develop different projects like technical improvements in the website, software development, facebook apps, newsletter production among others.

Previously at StudioSnaps, I was responsible for driving software architecture and development services as well as serving as a Python developer for PhotoBooth software.

Previously at Brandweb, I ran the application development team and guided a business process reengineering effort, which subsequently produced significant growth in web development services.

Having started my career at an early age, my prior background consists of extensive experience in multiple aspects of development, which has given me a well rounded skill set. Additionally, my qualifications include:

- Two years of experience for a Google Enterprise Partner in Santiago, Chile where I gained expertise in Google GSA, MINI, and development of SSO Authentication Integration with Google Apps Premium Edition.
- Recognition with a best innovation project award in Chile for my work on a Flash multiplayer game under the oversight of Fernando Flores.
- Entrepreneurial work ethic with a high level of innovation in designing technology solutions that are very usable and focused on client needs.
- Technical proficiency in PHP, Java, Ruby, Python, MySQL, XHTML, Ajax, and JavaScript.
- Bilingual with verbal and written fluency in Spanish.
- Availability for travel and relocation.

My resume is attached for your review, and I welcome any questions that you may have. I look forward to speaking with you at your earliest convenience. Thank you for your interest and consideration.

Sincerely,
Francisco Aranda
Developer, Software Architect.
